UNDER THE PATRONAGE OF:

3. - 4. April 2017

TRAUMATIC WRIST DISORDERS

DISTAL RADIUS FRACTURE (DRF)

PAF - Does it impact surgical indication?

Do the elderly need surgical treatment?

What is a complex DRF?

Why do I prefer volar plating for DRF?

Why do I prefer dorsal plating for DRF?

Primary surgery vs early corrective osteotomy?

The problem of lunate facet fixation

How to address the unstable dorsal ulnar fragment from volar

The catastrophic case: limits for standards and my solutions

AS in DRF am I convinced?

Evidenced indications for arthroscopy in DRF

Avoiding complications of plating DRF

Management of radio-carpal fracture dislocations

Findings of DRUJ instability in acute DRF?

Intra-operative fluoroscopic control

Limits of volar locking plates in acute DRF

First results of primary arthroplasty in the elderly

Role of wrist replacement in trauma wrist cases

RSL Fusion after failed fixation of DRF

Results of posttraumatic total wrist replacement

Panel discussion: What went wrong?

3. - 4. April 2017

DRU-JOINT AND TFCC-DISORDERS

- Functional anatomy of the DRUJ
- Importance of the IO membrane
- Pathological appearance of traumatic TFCC lesions in DRF
- AS treatment of foveal and peripheral tears
- Open treatment of foveal tears
- Treatment of chronic instability
- Waver vs ulna shortening for ulna impaction
- Surgery after failed primary AS treatment of TFCC
- Complications and side effects of AS
- DRUJ arthroplasty

Panel discussion: DRUJ instability

CARPAL INSTABILITY

- SL instability classification and clinical impact
- PL and reversed PL injury - functional anatomical point of view
- Management of acute perilunate injuries
- Arthroscopy in perilunate injuries
- Chronic scapholunate ligament instability: SLAM

Panel discussion: carpal instability

3. - 4. April 2017

SCAPHOID FRACTURE (SF)

Scaphoid fracture analysis
Limits and problems of dorsal screw fixation
Volar plating scaphoid
Do two screws increase stability?
Arthroscopy in acute scaphoid fracture
How to avoid complications

Panel discussion: What went wrong?

SCAPHOID NON-UNION (SNU)

Bone healing capacity in proximal pole non-union
Arthroscopic management of SNU
Vascularized vs non-vascularized bone grafts
Anatomical variations and surgical technique
of VBG from femur (when and how)
Lateral or medial MFG
Outcome and donor side morbidity of VBG from femur

Panel discussion: SLAC and SNAC: Salvage procedure or alternative in-between?
